## Me

---

LinkedIn - <https://linkedin.com/in/mohammed-sadiq-1b7a951b1/>

Personal Website/ Porfolio - <https://sadiq-1698-dev-portfolio.netlify.app/>

## Experience

---

### Senior Frontend Engineer

Blue Sky Analytics • Gurugram, Haryana

09/2021 - Present

My work focuses on building a literal digital twin of earth, a developer API platform and amazing UIs that describe our overall product. Transforming a catalogue of environmental datasets into highly effective visual platform. Visualizing business-ready and actionable environmental insights from AI-powered datasets with a detailed spatial and temporal context.

### Front End Developer

TranslateZ • Pune, Maharashtra

11/2020 - 08/2021

Built user dashboards to high conversion websites with services and products in edtech space. Worked with multiple libraries and frameworks with a major focus on ReactJS to build services with high performance and seamless web experiences.

### Full Stack Developer Intern

CammyO • Bangalore, Karnataka

12/2019 - 01/2020

Developed a client and admin side mobile application using Flutter framework. The backend was implemented using NodeJS and PostgreSQL for data storage. Push notification feature was implemented using FCM. Additionally, worked with Docker, AWS EC2 and Digital Ocean droplet.
